

Otters (Year R)

Yet another week has passed us by, the children continue to amaze us with their attitude to school and their learning. Well done! Next week we are looking at our cress seeds and seeing how much they have grown. We will be looking at instructions on how we planted them and we will be writing about the changes we can see. In maths, we will be revisiting and working with numbers and we will be revisiting how to make simple number sentences (using appropriate language). We will be continue to revisit set 2 RWI phonics – phew a busy week! **Other things to note:** Please remember we have PE on **Monday** and Golden Mile **Thursday** (PE kits needed). Forest school **Wednesday** and we change books **Friday**.

Owls (Year 1)

Woodpeckers (Year 2)

Maths

This week in maths we will be learning about capacity and volume. We will be investigating, measuring and recording capacity and volume. We will also be solving problems.

We will move on to learning about 2D and 3D shapes. We will investigate the properties of these shapes, lines of symmetry on 2D shapes, sorting shapes according to a range of criteria and looking at the similarities and differences of 2D and 3D shapes.

Literacy

This week in literacy we will be planning and writing our own dragon stories! Using the dragons that we invented last week. We will be thinking about the where our stories will be set and which characters will be in our stories. We will be writing sentences with exciting adjectives and verbs that we were practising last week. Thinking about our stories having a clear beginning, middle and end.

Next week, we will be rewriting the Easter story. We will focus on extending our sentences using conjunctions such as 'and, but, because, if and when'. We will be using adjectives in our writing and some children will be thinking about great sentence starters and similes.

Other things to note:

Foundation Subjects

Next week in:

RE: Concluding our unit of work on prayer by completing our prayer tree, thank you mountain and sorry stones. Introducing our unit of work on Easter.
Science: Learning about the seasons and springtime.
Art/DT: We will be learning about Pointillism.

Science: we will be looking at seasonal changes, specifically looking at winter and spring.
Art: we will be exploring the technique of *pointillism* and linking this to spring.
RE: we will continue to learn about different reasons for praying.
PSHE: we will be thinking about friendships and resolving conflict.
PE: tennis and The Golden Mile.
