

Otters Weekly Update for the week beginning 21st June

What a glorious, sunny week we have had (shame about the rain today!)

Next week we are:

- Beginning to look at minibeasts, concentrating on ladybirds. We will be looking at the story "What the Ladybird Heard" and we will be ordering the story and writing about it.
- In numeracy, we are looking at length. We will be using the language associated with measuring.
- As always we will be revisiting and playing games with our set 2 sounds.

Other things to remember:

- Please continue to read and record your reading on Tapestry.
- We change books on a Friday.
- Now the hot weather has finally arrived, please ensure your child has a school sun hat (or a sun hat, but not a cap please), sun cream on before arriving at school and, most importantly, a water bottle!
- Remember PE kits **ALL** of next week.

Owls Weekly Update for the week beginning 21st June

What an interesting week weather wise!

Next week we will carry on our topic of Making Waves. In English we will be writing a descriptive piece of writing about an under the sea picture. In Maths we are continuing our work on place value and ordering numbers. In Science we are looking at how sea animals are adapted to their habitat. In geography we are thinking about the physical features found in the sea and the different activities and jobs that take place on the water. We will continue answering the question 'What is a church?' in RE. Are you excited to work on the next step of our lighthouses? They are really starting to take shape!

Fingers crossed that the weather will be better for Forest School on Monday and Sports Day on Friday.

Please do remember to bring in waterproof clothes on Monday if needed.

Woodpeckers Weekly Update for the week beginning 21st June

We have had a lovely week and have enjoyed the sunshine (for most of the week!). Our lighthouses are coming on beautifully too!

Next week:

In English we will be writing instructions for making lighthouses.

In Maths we will be continuing to consolidate our understanding of fractions.

In Science we will be exploring human growth and development.

In Geography we will be using compass points to move to different points on a map.

In DT we will be painting our lighthouses and adding the finishing touches!

We are also going to be starting weekly lessons on transition to Year 3. This will be a time for the children to ask questions, share their feelings and discuss anything they want to about moving schools. We will be creating 'All About Me' books for their new teachers. We are also going to be planning our Leavers' Service and Leavers' Party. Although things have to be different due to current restrictions, we are going to make these events as wonderful as we can for the children and you!
