

Otters weekly update for the week beginning 28th June

Another busy week, it is a shame about Sports Day, hopefully next week will be better!

Next week we are:

- Continuing to look at minibeast, focussing on butterflies. We will look at lifecycles of the butterfly and read "The Very Hungry Caterpillar"
- In numeracy, we are looking at adding by counting on from the biggest number.
- As always we will be revisiting and playing games with our set 2 sounds.

Other things to remember:

- Please continue to read and record your reading on Tapestry.
- We change books on a Friday.
- Now the hot weather has finally arrived, please ensure your child has a school sun hat (or a sun hat, but not a cap please), sun cream on before arriving at school and, most importantly, a water bottle!
- Sports practice Monday with Sports Day (hopefully!) on Friday. Please wear kits Monday and Friday.

Owls weekly update for the week beginning 28th June

Hello Owls! Another busy week next week!

In English we will be writing descriptive sentences about different sea creatures. We will be thinking about adjectives to describe them and thinking about the ways in which they move (verbs) too.

In Maths we will look at recognising coins and notes and how to make different amounts. On Tuesday we will spend the morning thinking about September and will spend time in our Year 2 classroom - how exciting!

In Science we are looking at animals that are found in the grass. Can you think of any? We will look at what they eat and find out different facts about them.

We will continue to find out about what a church is in RE.

On Friday we will hopefully have some sunny weather so that we can enjoy sports day!

We will finish the last stage of making our lighthouses too.

Next week we will spend time listening and looking at your homework projects.

Have a lovely weekend.

Woodpeckers weekly update for the week beginning 28th June

We have had a lovely week. Our lighthouses are looking fantastic and we have been having lots of chat and discussion about moving to Year 3. The children are creating books for their Year 3 teachers so they know just how wonderful they are! We are also getting ready for our Leavers' Service which is going to be very special.

Next week:

In English we will be writing some special pieces for our Leavers' Service.

In Maths we will be continuing to focus on areas identified in assessment papers.

In Science we will be exploring animals' different environments and why they are crucial for survival.

In Geography we will be comparing beaches in the UK with beaches abroad.

In RE we will be continuing to explore Churches and designing our own Church.

We will also be continuing with our transition to Year 3 books and discussion, and we will be singing our Leavers' Songs!
