

## Otters weekly update – week beginning 5<sup>th</sup> July

Are we really in July already? What another busy week!

Next week we are:

- Continuing to look at minibeasts, focussing on snails and slugs. We will be looking at snails and different parts of a snail, and we will be describing them.
- In numeracy, we are looking at 2D and 3D shapes. We started this during lockdown, so we are revisiting and building upon our learning!
- As always we will be revisiting and playing games with our set 2 sounds.

### **Other things to remember:**

- Please continue to read and record your reading on Tapestry.
- We change books on a Friday.
- Now the hot weather has finally arrived, please ensure your child has a school sun hat (or a sun hat, but not a cap please), sun cream on before arriving at school and, most importantly, a water bottle!
- We have Zoolab coming on Friday, we will tell the children more about it nearer the time.
- We are visiting the Church Monday morning, please make sure you have a coat if the weather is inclement.

## Owls weekly update – week beginning 5<sup>th</sup> July

What a fantastic day we have had! We were so proud of how hard you worked and how well you did this afternoon at Sports Day.

Next week in English we are going to be thinking about summer and planning and writing summer poems. In Maths we will be reading the time to o'clock - it will help if you start to talk about the times of day that you do things (e.g. "it is 5 o'clock so it is nearly dinner time").

On Monday we will start off the week with a walk to church and will be looking at the different features of the building.

We will continue finding out about different animals in Science.

On Friday we have a visit from Zoolab and will get the chance to meet some very exciting animals.

## Woodpeckers weekly update – week beginning 5<sup>th</sup> July

We have had a lovely week which ended with a fantastic Sports Day.

Next week.....

In English we will be completing our writing for the Leavers' Service.

In Maths we will be continuing to focus on areas which need consolidating.

In RE we will be designing and making our own Churches.

In Science and Geography we will be having end of unit team quizzes.

We will be rehearsing for our Leavers' Service throughout the week.

Please can your child bring in a shoebox for making their Church. We will be thinking about the inside and outside of a Church. We have resources at school but if your child has any specific resources (junk modelling) they would like to use, please can they bring these in with the shoebox in a named carrier bag.
