

Week beginning 11th October

Ladybird Class Weekly Update

These weeks seem to be getting faster and faster! However, another successful week of learning has passed. Next week we will be looking at Supertato and speech marks. We will be creating new superhero fruit and vegetables and thinking about what they might be saying. We will cross link this to a circle time on being kind and how to cope if someone does or says something we do not like. Our phonics will be r,j,v,y and w. Our keywords will be: in, said, go and of. In maths, we will continue to consolidate numbers using number lines and 5 frames.

Things to remember: We will be doing Forest School on THURSDAY. On this day, you do not need to send your child in their school clothes. Please send them in a pair of tracksuit bottoms, a long sleeved top and their school jumper or cardigan. Wellies, if possible, can be left at school and if the weather is inclement or wet, please provide a set of waterproof trousers and a jacket. Thank you in advance.

Butterfly Class Weekly Update

Well done for another super week.

Next week:

English: we are writing simple sentences about autumn.

Maths: we will be representing and using number bonds and related subtraction facts within 10.

Science: we will be thinking about all of the things we have learnt about materials.

Topic: We will be finding out about the impact that Neil Armstrong's landing had on the world.

RE: We will be thinking about whether we can suggest meanings for some Biblical images of God.

DT: We will be planning and designing out own sketch books.

Forest school and PE on Friday.

Dragonfly Class Weekly Update

We have had a wonderful poetry and book filled week!

Next week.....

In English we will be writing a newspaper report on Neil Armstrong. We will be writing questions which we would like to ask Neil Armstrong.

In Maths we will be looking at fact families to 20, checking calculations and comparing number sentences.

In Science we will be exploring how materials were invented and we will be having a feely bag science game!

In RE we will consolidate our learning about Harvest.

In DT we will be designing our own sketch books which we will make the following week.

In History we will be learning some more about Neil Armstrong's life.

Your child is welcome to bring in their poetry/favourite book again, if they didn't have the chance to share it this week, and we will share them during whole class guided reading and story times next week.
