

How do we provide a foundation of Science skills and knowledge in our early years?

Plants

- Name familiar animals and plants in the environment (cross link to Human including animals)
- Understand how living things grow
- Understand the key features of the life cycle of a plant
- Explain how we can care for our environment and all living things (cross link to Humans including animals)

What might these experiences look like?

- Plant and care for herbs in the garden at school
- Go on an Autumn walk (Summer, Winter and Spring walk cross link to seasonal changes)
