

Week beginning 16th May

Ladybird Class Weekly Update

We have had a busy week and for most of it, the sun has been shining! Is summer finally on the way?

We are still working on recognising, using and applying our set 2 sounds to write simple words and dictated sentences.

For the rest of this term, we will look at all of the RED words we have been learning. Please do continue to look at them at home.

We are continuing our learning on pets. A big thank you to the people who have bought in their pets so far! We will be looking at how to care for our pets and we will be looking at instruction writing. As always, we will be focussing on independent writing through our daily morning carpet sessions.

From next week, I will also be assessing phonics (set 1 and 2) and numbers.

In Numeracy, we will be looking at number patterns.

Things to remember: The weather looks to be warming up, please remember water bottles.

Butterfly Class Weekly Update

Another super week Butterfly class.

In English we are continuing with sentence structure and looking at verbs ending with the suffix 'ing'. Our guided reading book is 'Dogs Don't Do Ballet'. In phonics we will continue to look at blends.

In Maths next week we are sharing.

In Science we continue to look at the parts of a plant.

In DT we are making a simple vegetable soup.

In RE we are looking at what the Torah is and why it is so important.

In Geography we are thinking about how seasons can affect life on a farm.

Athletics, Forest School and Music on Friday.

Please do remember that the children need to wear long sleeves and trousers in the forest to protect from ticks.

Dragonfly Class Weekly Update

This half term is whizzing by! It must be because we are busy learning so much!

Next week AM:

The children will be doing their fun quizzes **Monday-Thursday in the morning only**. Please try to make sure your child gets enough sleep next week (we know this can be tricky!) and that they have breakfast. We will be providing the biscuits!

Next week PM:

Science

We will be exploring the different ways in which seeds are dispersed.

Geography

We will be looking at how the seasons affect life on a farm.

RE

End of unit quiz on Islam (fun and in teams).

DT

We will be discovering how and where different fruits and vegetables grow before making our food product during the last week of term!

Whole-Class guided reading

Our book will be 'Rocket Says Clean Up' by Nathan Bryon.
