

# Week beginning 27<sup>th</sup> June

## Ladybird Class Weekly Update

What a great Sports Day, well done Ladybird class!

In phonics, we are continuing to look at set 2 sounds to really secure them in the recognition of them and in our writing. We are writing dictated sentences using these sounds.

We will continue to look at the previous Red words; we are looking at the words: could, should, would. These will be the final red words of the year; we will secure the ones we have been learning.

In Literacy, we are looking at caterpillars and butterflies, focussing upon the story "The Very Hungry Caterpillar". We will be looking at the lifecycle of a butterfly.

In Numeracy, we will be focussing on numbers and the number system - really looking at the composition of numbers to 5 then 10.

Things to remember: Please do provide a wide brimmed hat and a water bottle. We have been noticing some children are bringing in squash, please provide water. Thank you.

## Butterfly Class Weekly Update

What a super end to our week! So proud of you all for your efforts today.

Next week:

In English we are thinking about describing nouns with adjectives and then including appropriate nouns. Our whole class guided reading book is 'Rhinos Don't Eat Pancakes'.

In Maths we are continuing to order numbers and thinking about one more/one less.

In Science we are thinking about how humans are affected by the seasons.

In RE we are making our own churches with junk modelling - please do send in any boxes or items that you think may be useful.

In History we are making our very own dinosaur fossils.

On Tuesday we will spend the morning in Year 2 meeting our new teachers.

On Friday we will have Forest School, PE and Music.

## Dragonfly Class Weekly Update

What a wonderful sport's day! Thank you for supporting your children.

Next week in.....

English:

Year 2 will be writing about their favourite memories of their time at St Michael's in preparation for the Leavers' Service in July. They will also be writing poems and prayers for this event.

Maths:

The children will be continuing to enjoy a variety of Maths investigations.

Science

We will be exploring how germs are spread and how we can stay healthy.

Topic

We will be making salt dough dinosaur fossils!

DT

We will be making our moving minibeasts picture which we designed this week.

Whole Class Guided Reading

We will be exploring the poem 'The King of all the Dinosaurs'
